

THE LEADING PROVIDER OF REAL,
ACTIONABLE INTELLIGENCE

MONITOR, HUNT AND MITIGATE DIGITAL CRIMES WITH REAL INTELLIGENCE

Automatically uncover hidden risks by leveraging
the attackers' perspective for proactive protection.

KELA'S REVOLUTIONARY CYBER INTELLIGENCE PLATFORM

Neutralize risk by monitoring your case objectives and assets for your
teams to get actionable intelligence that prevents crimes

MONITOR

Monitor cybercrime sources for essential assets

Supports operational security roles by providing attack surface and asset management capabilities. It alerts on targeted threats specifically aimed at the organization by analyzing the adversary's perspective of the organization's external attack surface and maintaining proactive network defense.

INVESTIGATE

Investigate and analyze threats, targets, topics and groups anonymously and in real-time

Helps analysts to perform successful threat hunting and deepen their cyber investigations with contextualized intelligence insights as to attackers' TTPs, threat actor profiles and identities, hacking discussions, and more.

THREAT LANDSCAPE

Stay ahead of threats with KELA's intelligence insights

Offers high-level intelligence on the ever-changing cybercrime ecosystem, including dashboards of top trends, daily highlights, and finished intelligence feed by KELA's cyber intelligence experts. It shows ransomware events, network accesses on sale, leaked databases, and new threats across all sectors to deliver high-level executives with effective, strategic information, thus enabling informed decisions on the next steps.

TECHNICAL INTELLIGENCE

Detect suspicious IPs and domains involved in cybercrime activities

Provides SOC teams with automated detection and monitoring of potentially compromised IPs and domains involved in cybercrime activity. This actionable real-time threat intelligence enables defenders to identify and neutralize cyber threats they were unaware of, proactively informing them of potential assets used by attackers and ultimately protecting their organizations from the ever-evolving cyber threat landscape. Available via Snowflake Marketplace.

WE ARE KELA

An award-winning cybercrime threat intelligence firm,
KELA's mission is to provide 100% real, actionable intelligence on threats emerging from the
cybercrime underground, to support the prevention of digital crimes.

Our success is based on a unique integration of our proprietary automated technologies and
qualified intelligence experts. Trusted worldwide, our technology infiltrates hidden underground
places and thoroughly monitors, hunts, and mitigates digital crimes to uncover real risks and
allow proactive protection.

KELA's revolutionary solution arms you with highly contextualized intelligence, as seen from the
eyes of attackers, thus enabling the elimination of blind spots and proactive network defense.
